

Not wishing to prejudge anything but Branham Trojans FC are trying to look to the future and in particular any recreation/sports plans within the proposed BEW development.

We are the biggest sports club in the Six Villages with some 20 teams from U7 to U18 with 270+ children registered with the Club. At present our football pitches and teams are spread far and wide around the area. We do have our own Development Plan and do foresee the requirement for new facilities especially if 2000+ houses are built in the area. We envisage up to a possible doubling of players and therefore teams within Barnham Trojans FC.

As a Club we need to be proactive and get in early (if that's the right expression) just in case the proposals do go ahead.

Where do I find any mention of recreation/sports/community development plans within the local plan with specific reference to the BEW proposals

I have looked on the Local Plan site but there is very little mentioned re as far as I can see.

Can you point me in the right

Best Regards

Dennis Leonard
